

## **HAPPY BIRD DAYS**

If you want to spend your Holiday, your weekend or just one day in your life a bit different than always and of course if you would like to keep your hobby alive during your trip, especially if you came to bird watching in Spain we invite you to our exciting bird trips.

### **1 day bird watching**

You are in Costa Brava?! Let's check who is flying behind the rocks and the sandy beaches!

"Bird ride" at Aiguamolls de L'Emporda: If You fancy an easy ride by bicycle around the natural park, do that with us!

Our ride will take 4-5 hours, no more than 30km and absolutely flat/I told You its easy ride/. The route goes through different landscapes, starts from salt water lagoons to biking between fresh water marshes, then crossing over a river and we arrive to the canals of Empuriabrava but we still have a long way to go and to see! We can cool down the shade of riverine forest before passing by the farmlands and arriving back to our starting point and of course we stop for bird watching at different itineraries. If you are interested in butterflies we can do a short visit in the butterfly park Emporda.

“Lazy bird” at Aiguamolls de L’Emporda: If You don’t feel to wake up early as you are on holidays, we can start our trip after your “siesta”....

Our walk will take 4-5 hours. Start around 4-5pm depending on the season. We can stay until sunset to see where the birds are sleeping or we can enjoy the spectacular lights of the sunset with one cocktail from the best “Chiringito” on the impressive sandy beach of Costa Brava.

“Bird bath” at Aiguamolls de L’Émporda:

It has some of the best birdwatching facilities in the whole of the Iberian Peninsula. Most of the Aiguamolls is flat and a number of easy and relaxing walking itineraries, suitable for all types of birdwatchers

Our walk will take 4-5 hours. Best to start early in the morning and we recommend to do it during the week to avoid the weekend crowd. We can make the day longer with a special refreshing stop at the best “Chiringito” on the impressive sandy beach of Costa Brava. If You are early bird we can catch the Sunrise, which for sure will give You an unforgettable vision.

## **2Days bird watching**

Want to know more about birds and cultures in Spain and see which birds are living on the beaches?! We can offer you our smoothly combined weekend trips to get into the spirit of local restaurants and historical towns.

*“Delta bird” at Ebro Delta 2days:* This big river delta of over 320km is one of Europe’s greatest birdwatching site. Famous worldwide as a site of great natural and ornithological interest: the world’s largest colony of Audoin’s Gulls, the second largest Iberian colonies of both Greater Flamenco and Glosy Ibis.

The large rice fields are not only for the birds it also gives us a great opportunity to try the delicious and famous rice dishes of ebro Delta which are of course best with local wines. As well as that can visit historical remains of Romans in Tarragona city.

### **Detailed itinerary:**

**Day1:** We leave Girona at 8o’clock at the latest. On the way we’ll have one photostop at the famous Roman aqueduct. Breakfast around the Delta and with renewed energie we start observing birds in the north part of Ebro. After a few hours of bird watching, depending on our enthusiasm and weather conditions, around 2- 3o’clock. We will have a wine and rice tasting lunch in one traditional restaurant on the beach. Later on just before the sun goes down we will visit the world’s largest colony of Audoin’s Gulls. For the evening free program chill out!

**Day2:** Breakfast in the Hotel. 9 o'clock we pick up the bikes and go to discover the area surroundings Bahia del Fangar. Our way will passing by traditional "baraccas" in the middle of rice fields, The Port of Illa de Mar where we can observe the fishermen activities, flocs of Flamencos and limicolas. It will take us 4-5 hours, just to get hungry enough for another traditional lunch at the heart of Delta Ebro. When we are full enough we take off. Half way to home we stop in Tarragona for a quick 1hour sightseeing. Arriving Girona, late afternoon, early evening.
